"Who Wrote the Book of Love?"

A Study of the book
"The Song of Songs"

relationships"*

"Who Wrote the Book of Love!"

A Study of "Song of Songs"

A True Story of Love ✦ Romance ✦ Intimacy Marriage ✦ Commitment

This study covers all of the stages of a relationship from:

- Attraction
- Dating
- Courtship
- Intimacy
- Conflict
- Romance
- Commitment

God did not give us something as powerful as love and marriage and then forget to give us a blueprint of how a Godly relationship can be developed. This blueprint is found in the "Song of Songs" and is a beautiful depiction of all of the steps taken to develop that relationship.

We study the entire book of the "Song of Songs" together and help provide clarity for the metaphors which take you from: attraction, through fights, into the bedroom of Solomon and his wife on their wedding day, more disagreements (we all have them), and ending in commitment to one another. It is a wonderful example of how God has provided clarity on how marriage is designed to last a lifetime.

**"I will love honor and cherish you
until death do us part."**

In general, today's society does not embrace a lifetime commitment. We as Christians need to understand that God's desire for our marriages is for them to last a lifetime. It is not easy to make this promise, but we are expected to keep our pledges to one another and above all to God.
